Compliance with industry privacy, security, and data center standards
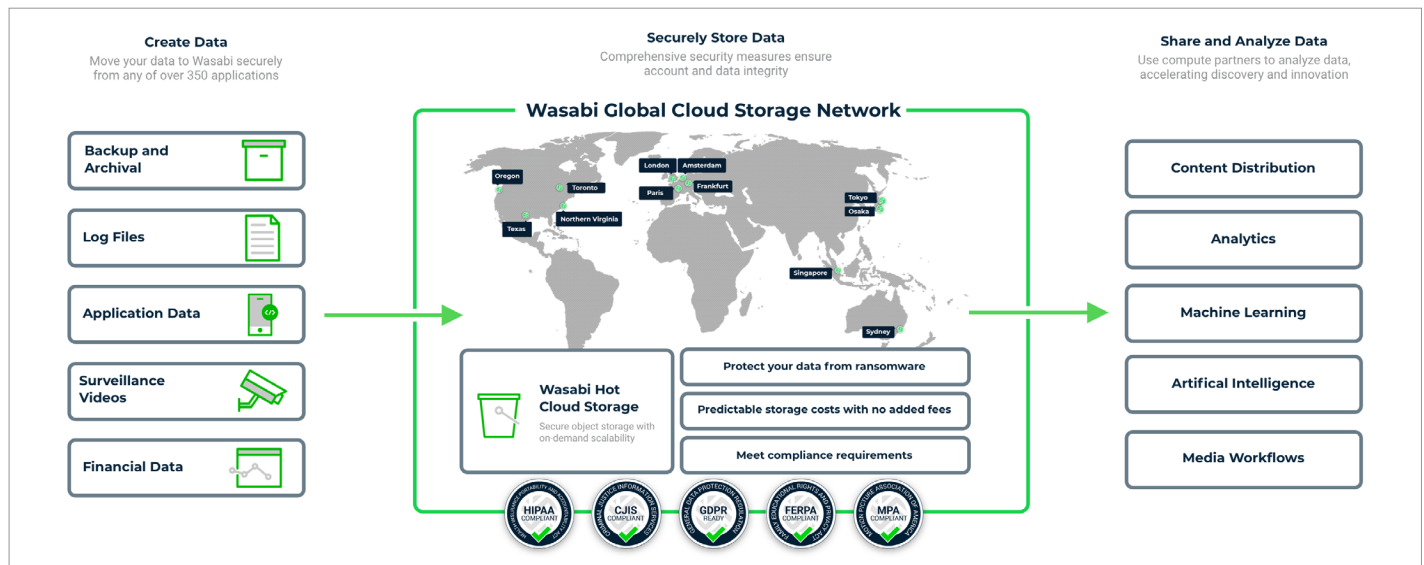

Wasabi Hot Cloud Storage (Immutability via S3)

Wasabi Hot Cloud Storage is a universal, one size fits all cloud object storage service that eliminates confusing storage tiers and satisfies nearly all storage performance requirements. Hot Cloud Storage costs less than traditional cold storage service and is significantly faster than traditional frequent-access storage services. With Wasabi Hot Cloud Storage all data is treated equally and made readily accessible no matter how you classify it, hot, cool or cold. Hot Cloud Storage is low-cost, durable and highly available secure cloud storage with no tier-based latency delays.

Wasabi Hot Cloud Storage provides the following key features:

- S3 compatible/compliant API for seamless application integration
- Wasabi Account Management and API for management, monitoring and insights
- GUI Management Console for easy bucket management
- Security features including MFA and IAM (RBAC)
- Predictable pricing with Reserved Capacity or Pay-As-You-Go options
- Perfect for SMBs, SMEs, and Enterprises with constantly growing datasets

Extend the life of your on-premises servers, reduce costs, and never run out of capacity with fast and secure cloud network attached storageConnect it to your existing on-premises NAS, SAN or DAS to automatically offload cold data (or any data) to low-cost Wasabi hot cloud storage. Use it to free up server capacity while keeping your data available and retrievable within milliseconds.

Wasabi Surveillance Cloud

Wasabi Object Storage integrated with gateway software, optimized for NAS use cases. By combining on-prem and cloud technology organizations can maintain their current VMS setup locally and reap the benefits of the cost-efficient cloud while never running out of storage capacity.
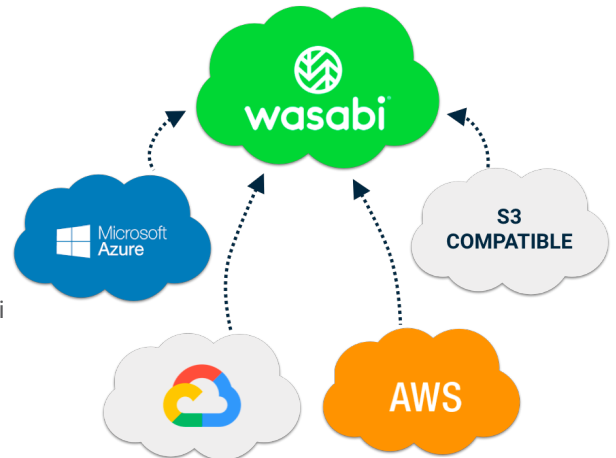

Wasabi Cloud NAS

Instantly extend the capacity of your on-premises surveillance video management system (VMS) with this simple and secure hybrid cloud storage solution from Wasabi.

Wasabi Cloud Sync Manager

Wasabi Cloud Sync Manager provides the self-service management controls to replicate the contents of buckets across regions and within regions; Wasabi Cloud Sync Manager also helps users to migrate date into Wasabi from other S3 compatible object storage service providers like AWS, GCP, and Azure.

Wasabi Ball Transfer Appliance

The Wasabi Ball Transfer Appliance lets you move large datasets to Wasabi Hot Cloud Storage quickly, conveniently and cost-effectively. The Wasabi Ball Transfer Appliance is ideal for customers that don't have sufficient network connection speeds to transfer large amounts of storage over the Internet or private network connections.

Wasabi Direct Connection

Wasabi Direct Connect is a high-speed, private, secure connection from your on-premises data center or colocation site directly to Wasabi. With this solution you can reduce network costs, increase bandwidth, and provide a dependable network experience for your organization.

Wasabi Account Control Manager

The Wasabi Account Control Manager is an all-in-one hosted platform that enables you to easily provision, monitor and manage the Wasabi storage service in a multi-tiered environment. Wasabi Account Control Manager harnesses the power of the Wasabi Account Management API and presents it as an easy-to-use graphical user interface. MSPs and large multi-divisional organizations can cut their storage implementation time to minutes instead of days, using a simple graphical interface to get users up and running faster. Using the Account Governance feature also allows you to manage an additional tier of accounts. The Custom Cloud Console feature supports OEMs' and MSPs' custom branding to present Wasabi as a white-labeled service.

Wasabi Explorer

Wasabi Explorer is a free app that helps you to transfer files between your Windows or Mac system and your Wasabi account. With Wasabi Explorer you can upload files, download files, create folders, and manage the files in your Wasabi buckets.

Technical Alliance Partners

Wasabi works in conjunction with a plethora of partners to simplify the integration of our cloud storage service with their applications. Together we provide solutions to store your data securely, and economically, with the performance expected by enterprises of all sizes in every possible industry. Major application vendors supported include: Veeam, HYCU, Commvault, Marquis, Milestone, Hanwha, Adobe, LucidLink, and others.

BUILT-FOR-SCALE, DURABILITY, SECURITY AND COMPLIANCE

NJECC co-op buy pricing

	Wasabi priced per TB; for new customers only				
	1-year	2-year	3-year	4-year	5-year
50-99TB	$ 73.29	$142.49	$ 202.49	$262.39	$ 304.39
100-249 TB	$ 72.29	$140.59	$ 199.59	$259.49	$ 327.09
