

Visualize Your Device Data Like Never Before

CHROMEBOOK ENGAGEMENT

GAIN NEW INSIGHTS ON YOUR CHROMEBOOKS

If you've ever used the Google Admin Console, you know how much data you have access to. However, aggregating that information into useful reports can be time-consuming, not to mention tedious. The Chromebook Engagement Dashboard allows your team to quickly and easily identify the data important to you, with the option to filter by school building, grade level, student, and device. Did we mention you don't even have to download a spreadsheet?

AUTO UPDATE EXPIRATION DATES

Plan for the future by keeping track of which devices will need to be replaced

LAST KNOWN NETWORK

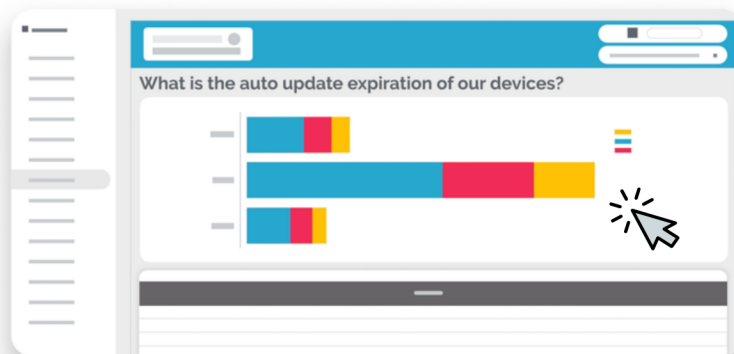

Track lost or stolen devices by which IP address they last logged into

PREPARE FOR STATE TESTING

Quickly discover which devices are not compliant for state testing standards

SEE A BAR, CLICK A BAR

All pages inside the Chromebook Engagement Dashboard are interactive, allowing your team to quickly identify and export a specific group of data
