

NJECC Cooperative Buy: SentinelOne Complete EPP, EDR, MDR for NJ K-12 schools and districts!

The challenges with cybersecurity events remain a hot topic in the K12 market. The need to prevent & defend your school district's network, data & users has never been more critical. However, budgets are not increasing to keep pace with those demands & solutions to help protect are expensive. SentinelOne has created a compelling special offer that brings a tier 1 solution & proactive defense team to your district. With 24x7x365 MDR service included, you'll know that cybersecurity experts are watching & proactively protecting your environment.

**now includes PurpleAI: an AI-powered SOC analyst that streamlines threat hunts and investigations using generative AI, significantly enhancing SOC efficiency.*
