

Tango Software

Supporting K–12 schools since 1996

What We Do

Tango combines assessment and personalized practice in one platform to help schools understand student performance and drive growth, connecting data to instruction for faster, targeted support. It also supports K–3 universal screening and includes dyslexia screening to help identify at-risk students early and guide intervention aligned with RTI, MTSS, and NJTSS.

Why Choose Tango?

Most assessment tools stop at reporting data. Tango goes further by turning assessment results into actionable insight and personalized learning that teachers can use immediately to support instruction and student growth.

Key Benefits:

- Supports RTI & MTSS initiatives
- Aligned to the Science of Reading
- Meets K–3 screening expectations
- Includes dyslexia screening
- Assessment & personalized practice in reading, math, & science
- Faster instructional decisions with real-time feedback

How Tango Supports Schools

For Students

- Personalized learning
- Skill mastery
- Greater confidence

For Teachers

- Actionable insights
- Progress tracking
- Data-driven instruction

For District Leaders

- Growth visibility
- District-wide reporting
- Instructional alignment
