

Bring Real-World Coding & STEM Learning to Your Classrooms

Camcor, Inc. + Mastery Coding deliver industry-leading computer science curriculum, educator training, and turnkey classroom solutions.

Turn Screen Time into Skill Time

Instead of fighting screen time, let's redirect it. Discover how educators can turn students' love of games and screens into deep, skill-based learning.

Why Schools Choose This Partnership:

Camcor and Mastery Coding ignites pathways for obtaining certifications in web development, computer science, cyber security, AI, media, business.

- Career-connected coding curriculum (Game Dev, Web Dev, AI)
- Built for K-12 and Higher Ed environments
- Professional development for educators
- Turnkey implementation with ongoing support

Schedule your demo today!

All demos are coordinated with your local Camcor Territory Manager and Mastery Coding to ensure full support, pricing alignment, and implementation success.

MASTERY

— C O D I N G —

Camcor + Mastery Coding will offer expert guidance and knowledge to help you select the most effective technology solutions and innovations for your educational environment.

Mastery Esports™

- The nation's premier K-12 esports league on America's safest competition platform
- An award-winning, standards-based curriculum with full professional development
- Career exploration and game development courses, workforce internships, college scholarships and more!

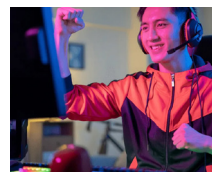

Game Design Course 1

Game Development 1 teaches C# coding and game design with the Unity 3D Engine, giving students the skills to build their own games.

AI Lesson Planning

AI Essentials introduces students to the world of Artificial Intelligence through a hands-on, engaging approach. Students explore foundational AI concepts, such as neural networks, machine learning, and ethical considerations. By the end of the course, students will have the skills to distinguish between different types of artificial intelligence, explain how various AI systems are created, and use generative AI tools as tools for learning.

Pathway Esports™

Ignite interest and engagement in computer science and STEM through the exciting field of esports. With the Pathway Esports™ toolkit, students and schools will have everything they need to start and run their very own esports team and compete in local and national tournaments.
