

Bring Real-World Coding & STEM Learning to Your Classrooms

Camcor, Inc. and Mastery Coding are partnering together to deliver industry-leading computer science curriculum, educator training, and turnkey classroom solutions.

Turn screen time into skill time

Instead of fighting screen time, let's redirect it. Discover how educators can turn students' love of games and screens into deep, skill-based learning.

Why Schools Choose This Partnership:

Camcor and Mastery Coding ignites pathways for obtaining certifications in web development, computer science, cyber security, AI, media, and business.

- Career-connected coding curriculum (Game Dev, Web Dev, AI)
- Built for K-12 and Higher Ed environments
- Professional development for educators
- Turnkey implementation with ongoing support
